

MacCamp Spring 2008

April 18, 19, 20 at Silver Falls Conference Center

Join us for a weekend of Macintosh immersion.

Customizing Photoshop Workflows - Gary Hilton

One problem you face when editing a photograph is what to do first. Should you first work to improve color, or the tones and contrast? Clone first? Or crop? When is it best to sharpen? The order you choose (the workflow) can produce different results, and may degrade image data. We'll try to clarify these choices.

Converting music to digital - Peren Bjork

A how-to session on converting vinyl LPs (or any analog audio) to CDs using equipment and software that most people already have. If you don't have it, we'll discuss where to find it cheap and some of it free (software at least).

iLife Overview - Ken Gengler

The intention of this class is to introduce you to the components of iLife: iTunes, iPhoto, iMovie, iDVD, and iWeb. In this class you will learn how to accomplish some of the basic tasks in each of these applications and how they interact with each other.

iStopMotion - Steve Travis

The stop motion technique can be a time consuming and tedious process but with programs like iStopMotion, you can create fun animations easily and fairly quickly. The program uses either an iSight camera or a digital camcorder to capture the images from your "Stage". You will need a firewire capable Mac and an iSight camera or digital camcorder. A camera tripod is recommended. Bring "objects" that you can use for creating animations: beans, crayons, small blocks. A demo version of the iStopMotion program will be provided.

Bento - Janet DeVore

If you were interested in the FileMaker Pro class that we had last October but didn't want to invest the time and money for the super-powerful application, there is now another way to start using a database application to organize your life. Come learn about Bento, a brand-new application that is easy to use - and affordable. It does require that you are using Mac OS X 10.5.

iPods Fully Loaded - Ron Schmid

More than just music players! Learn what else you can do with them. How to put movies, photos, maps, calendars on them as well as other cool iPod tips, tricks and essentials.

Spring MacCamp 2008

Silver Falls State Park Conference Center, April 18-20

"Early" Registration Form

MacCamp is a semi-annual event offering workshops, networking and camaraderie to Macintosh enthusiasts of all skill levels.

please print legibly

Number in party _____ email _____

Name Name as it will appear on badge male female

Name Name as it will appear on badge male female

Address _____

City _____ State _____ Zip _____

Home Phone _____ Alternate _____

Machine Type _____ System _____

Ethernet capable Wireless capable

This is my first MacCamp

Special Diet

Vegetarian Other _____

Sleeping Accommodations

no smoking in rooms

Would you prefer:

to be in a main lodge or have a little more solitude?

room with _____

Note: Prepare yourself for some late evenings on the network. Most campers find themselves up much longer than expected.

To aid in our room assignments, please indicate on this bar the time you plan to go to sleep:

9PM 11PM 1AM 3AM Up all night!

Classes: Please indicate the number of people in your party next to each class they will attend.

_____ Saturday morning
_____ **Photoshop Workflow**

_____ Saturday afternoon
_____ **iLife**

_____ Sunday morning
_____ **Bento**

_____ **Converting Music**

_____ **iStopMotion**

_____ **iPods Fully Loaded**

Fees: full payment must accompany this form

Registration fee includes Friday dinner through Sunday lunch, two nights lodging and three workshop sessions. Cost varies by date paid.

\$179 per User Group Member if paid before March 1 \$ _____

\$189 per User Group Member if paid between March 1 and April 1 \$ _____

\$199 per User Group Member if paid after April 2 \$ _____

Non-members add \$42 (for 1 yr. PMUG membership) \$ _____

All registrations must be in by the **7th of April** **Total:** \$ _____

You will need to bring a computer, with power cords and other cables, and your own software.

✉ Mail completed registration form to:
