President's Report

Ron has asked Steve to present on iTunes Match for the December meeting. It seems to make Genius disappear on the iOS devices when activated, but then it returns once you turn Match off. Steve will also cover moving your music to the cloud. For January, Ron was talking to Jeff Garnet from MacObservers and Kurt Shoemaker (formerly from Microsoft) from Parallels. Both have been contacted. Ron will try to get the topics nailed down. Possible video chat. Charles had another connection for March.

Electric Sheep

The official date of the shutdown was Oct. 30. We are waiting for a phone bill which represents the only service going forward. Forums seem to be going fairly well. More members seem to be visiting. Steve encourages us all to post stories, tips, suggestions to stimulate the members to participate.
